PROFESSIONAL SUMMARY

Frontend UI Developer with 3+ years converting Figma designs into responsive, accessible React applications. Specialized in UI implementation delivering pixel-perfect components with 95%+ design accuracy. Led UI development team of 3-5 developers, mentored 5+ junior developers on React best practices. Proven track record of 17+ production websites achieving 90+ Lighthouse scores across e-commerce, SaaS, and business platforms. Strong expertise in WCAG 2.1 AA accessibility compliance and performance optimization.

TECHNICAL SKILLS

Frontend Frameworks: React.js, Next.js

Languages: JavaScript (ES6+), HTML5, CSS3

Styling: Tailwind CSS, Bootstrap, Sass/SCSS, CSS Grid, Flexbox, CSS Modules

Accessibility: WCAG 2.1 AA, ARIA, Screen Readers, Keyboard Navigation, Semantic HTML

Performance: Lighthouse Optimization, Core Web Vitals, Lazy Loading, Code Splitting

Tools & Design: Figma, Adobe XD, Git, VS Code, npm

Methodologies: Figma-to-Code Implementation, Component-Based Architecture, Mobile-First Design, Agile/Scrum, Code Reviews, Team Leadership

PROFESSIONAL EXPERIENCE

Senior Web Designer | Global Trendz Pvt. Ltd.

May 2024 – November 2025 | New Delhi, India

Frontend UI Developer leading team of 3-5 developers building responsive, accessible React applications from Figma designs. Managed code reviews, technical mentoring, and project coordination while delivering production-ready UI components.

Technical Achievements:

- Coded 17+ production websites using React.js, Next.js, and JavaScript achieving 90+ Lighthouse scores
- Reduced page load times by 35-40% through performance optimization and code splitting
- Developed reusable component library using React.js, Tailwind CSS and Bootstrap, cutting development time by 30%
- Converted 50+ Figma designs into pixel-perfect React components with 95%+ visual accuracy
- Built interactive UI components with React hooks (useState, useEffect) handling JSON data for frontend display
- Created API-ready UI components with proper data structure integration for backend team

Leadership & Mentoring:

- Led UI development team of 3-5 frontend developers coordinating project assignments
- Mentored 3 junior developers and 2 interns on React best practices and Figma-to-code workflows
- Conducted weekly code reviews improving team code quality by 40%
- Established component library documentation enabling faster team onboarding

Accessibility & Performance:

- Achieved WCAG 2.1 AA compliance across 12+ projects with semantic HTML and ARIA labels
- Improved Core Web Vitals with 85% of sites achieving 'Good' ratings in all metrics
- Reduced accessibility violations by 80% through systematic WCAG implementation

Key Projects:

- Scholarship Portal: Coded frontend UI serving 500+ students with multi-step forms and admin dashboard
- E-commerce Sites: Built shopping UI for Grub Digest and Floral Hut with product catalogs and checkout flows
- Quotation System: Developed React-based sales management interface with real-time UI updates

Web Designer | Global Trendz Pvt. Ltd.

December 2022 – May 2024 | New Delhi, India

Frontend developer building responsive websites using HTML5, CSS3, JavaScript, and React.js for small-to-medium businesses across e-commerce, service, and retail industries.

- Built 8+ production websites with focus on responsive design and mobile-first approach
- Converted Figma mockups into functional React.js web interfaces with 90%+ design accuracy
- Implemented SEO best practices and schema markup improving organic visibility for 6 client sites
- Optimized website performance reducing average load time from 4.2s to 1.8s (57% improvement)
- Maintained and updated 15+ client websites with content changes and feature enhancements

Web Designer Intern | Global Trendz Pvt. Ltd.

September 2022 – November 2022 | Delhi, India

Entry-level internship learning web development fundamentals and assisting with client website projects.

- Converted design mockups to HTML/CSS code under senior developer guidance
- Assisted with website maintenance and bug fixes for 5+ client sites
- Built foundational skills in HTML5, CSS3, JavaScript, and responsive design

KEY PROJECTS

Grub Digest - Restaurant Discovery Platform (UI Implementation) | grubdigest.com

Coded complete frontend UI using React.js. Converted Figma designs into responsive components including restaurant listings, search, filtering, and menu display. Built API-ready components for backend team integration. Achieved 90+ Lighthouse performance score.

Floral Hut - E-commerce Platform (UI Implementation) | floralhut.in

Built complete e-commerce UI with product catalog, cart interface, and checkout form. Converted Figma mockups to React.js components with Bootstrap. Delivered frontend with proper JSON data structure for backend API integration.

NAB Delhi - Accessible Platform (UI Implementation) | nabdelhi.in

Coded accessibility-first UI implementing WCAG 2.1 AA standards. Built semantic HTML with ARIA labels, keyboard navigation, high-contrast modes, and screen reader support. Platform serves 1000+ visually impaired users.

Scholarship Management System (UI Layer)

Developed frontend interface for scholarship application system. Built multi-step form UI, document upload interface, admin dashboard, and student portal. Created React.js components serving 500+ students. Delivered UI layer with JSON data handling ready for backend API integration.

EDUCATION

Diploma in Web Designing | M. Computer Academy

August 2021 – August 2022

Comprehensive training in web development fundamentals, UI/UX principles, responsive design, and modern frontend technologies.

Bachelor of Arts | University of Delhi

July 2018 – July 2021
